

Customer Service Standards Policy

Updated May 2019

Intent

All services provided by GGFL will follow the principles of dignity, independence, integration, and equal opportunity.

This policy meets the requirements of the customer service standards included in the *Integrated Accessibility Standards Regulation* under the *Accessibility for Ontarians with Disabilities Act, 2005*. It applies to the provision of goods and services to the public or other third parties, not to the goods themselves.

Statement of Commitment

GGFL is committed to providing a barrier-free environment for all stakeholders, including our clients, employees, job applicants, suppliers, and any visitors who may enter our premises, access our information, or use our services. As an organization, we respect and uphold the requirements set forth under the *Accessibility for Ontarians with Disabilities Act, 2005*, and its associated regulations.

GGFL understands that we have a responsibility for ensuring a safe, dignified, and welcoming environment for everyone. We are committed to ensuring our organization's compliance by incorporating accessibility legislation into our policies, procedures, equipment requirements, training, and best practices. We will review these policies and practices annually, as organizational changes occur, or in anticipation of compliance deadlines. In addition, we will strive to meet the needs of individuals with disabilities in a timely and effective manner.

Service animal: A service animal for a person with a disability if:

1. The animal can be readily identified as one that is being used by the person for reasons relating to the person's disability, as a result of visual indicators such as the vest or harness worn by the animal; or
2. The person provides documentation from a member of one of the following regulated health professional colleges confirming that the person requires the animal for reasons relating to the disability:
 - College of Audiologists and Speech-Language Pathologists of Ontario;

Guidelines

The Provision of Goods and Services to Persons with Disabilities

GGFL will make every reasonable effort to ensure that its policies, practices, and procedures are consistent with the principles of dignity, independence, integration, and equal opportunity by:

- Ensuring that all customers receive the same value and quality;
- Allowing customers with disabilities to do things in their own ways, at their own pace when accessing goods and services, as long as this does not present a health and safety risk;
- Using alternative methods when possible to ensure that customers with disabilities have access to the same services, in the same place and in a similar manner;
- Taking into account individual accommodation needs when providing goods and services; and
- Communicating in a manner that takes into account the customer's disability.

The Use of Assistive Devices

Customer's Own Assistive Devices

Persons with disabilities may use their own assistive devices as required when accessing goods or services provided by the company.

In cases where the assistive device presents a health and safety concern or where accessibility might be an issue, other reasonable measures will be used to ensure the access of goods and services, up to the point of undue hardship.

For example, open flames and oxygen tanks cannot be near one another. Therefore, the accommodation of a customer with an oxygen tank might involve ensuring the customer is in a location that would be considered safe for both the customer and business.

Alternatively, where elevators are not present and where a customer requires assistive devices for the purposes of mobility, service will be provided in a location that meets the needs of the customer.

Guide Dogs and Service Animals

A customer with a disability who is accompanied by a guide dog or service animal will be allowed access to premises that are open to the public.

Staff may respectfully ask if an animal is a service animal and will not ask the nature of the person's disability or purpose of the animal.

Recognizing a Guide Dog or Service Animal:

If it is not readily apparent that the animal is being used by the customer for reasons relating to their disability, GGFL may request verification from the customer.

Care and Control of the Animal:

The customer who is accompanied by a guide dog or service animal is responsible for maintaining care and control of the animal at all times.

Allergies and Other Health and Safety Concerns

If a health and safety concern presents itself, for example, in the form of a severe allergy to the animal, GGFL will make all reasonable efforts to meet the needs of all individuals. Pursuant to the company's obligations under the *Human Rights Code* and the *Occupational Health and Safety Act*, each customer's accommodation needs will be considered on a case-by-case basis, up to the point of undue hardship.

Due diligence needs to be paid to address health and safety requirements. For example, if a person's health and safety could be seriously affected by the presence of a service animal on the premises open to the public, management must fully analyse all options for safely accommodating the service animal. Options could include creating distance between the two individuals to eliminate in-person contact, changing the time the two individuals receive service, or using air purifiers and other measures that could allow the person to use their service animal on the premises.

In very exceptional circumstances where a service animal becomes out of control, causing a clear disruption or a threat to the health and safety of others, and the animal's behaviour is not corrected by the owner, a person with a disability can be asked to remove their service animal from the premises.

As a courtesy, particularly if the person and service animal have been in attendance on the premises for a long time, staff may ask whether the animal requires water, may designate an area in which the service animal can relieve itself, or ask whether the staff can be of assistance pertaining to the service animal.

The Use of Support Persons

If a customer with a disability is accompanied by a support person, GGFL will ensure that both persons may enter the premises together and that the customer is not prevented from having access to the support person.

There may be times where seating and availability prevent the customer and support person from sitting beside each other. In these situations, the company will make every reasonable attempt to resolve the issue.

In situations where confidential information might be discussed, consent will be obtained from the customer before any potentially confidential information is mentioned.

Notice of Disruptions in Service

Service disruptions may occur for reasons that may or may not be within the control or knowledge of GGFL. In the event of any temporary disruptions to facilities or services that customers with disabilities rely on to access or use goods or services, reasonable efforts will be made to provide advance notice. In some circumstances, such as in the situation of unplanned temporary disruptions, advance notice may not be possible.

If a notification needs to be posted, the following information will be included unless it is not readily available or known:

- Goods or services that are disrupted or unavailable;
- Reason for the disruption;
- Anticipated duration; and
- A description of alternative services or options.

Notification Options

When disruptions occur, GGFL will provide notice by:

- Posting notices in conspicuous places, including at the point of disruption, at the main entrance, and the nearest accessible entrance to the service disruption, or on the company website;
- Contacting customers with appointments;
- Verbally notifying customers when they make a reservation or appointment; or
- By any other method that may be reasonable under the circumstances.
